SANCTITY OF THE HOME

Statistics show that Canada has
fewest divorces per population of an
English-speaking country in the
world.

The actual percentage here it is
figure 3 per cent. England and
Wales have 2.2, Australia has 2.0,
New Zealand has 1.2 and the United
States leads the list with 11.2.

Canada's paucity of divorces is not
due to the fact that divorces are
easier to secure in these other
countries. The Dominion's divorce
laws are generous. There is no legal
bar to the freedom of husband and
wife who is genuinely aggrieved.

The real reason for this situation
is that women are not lightly broken
in Canada.

The institution of the home is re-
garded with more reverence in Can-
ada than in any other country in the
world.

Canadians misquote as often as any
other peoples. But with this inhibi-

revention for the home, they prefer
to bear their own unhappiness rather
than risk the happiness of future
generations.

It is a very splendid frame of mind
which to build a nation.

UNLOCKING THE ATOM

Science works feverishly to unlock
the secret of the atom.

The energy contained in one atom,
it is believed, would propel an ocean
liner from Vancouver to Japan and
back again.

An atom, the smallest bit of matter
into which a chemical element is
divisible, consists of a nucleus and
electrons flying around it at tremen-
dous speed, very much after the fash-
ion of our sun and the planets of the
solar system.

If this energy which stimulates
electronic movement were released it
would afford the greatest source of
power that is yet discovered.

There is enough energy locked up
in a pint of water to blow the earth
to bits.

What, then, will science do with
this power, if it is discovered?

Will it be used to turn industrial
plants into powerhouses?

One unscrupulous scientist, with
the secret of atomic energy, could in
two minutes make this earth look
like an egg that has been dropped on
a hot stove.

Too much knowledge and too little
morality has been the curse of man-
kind.

The people of Atlantis destroyed
themselves by some unknown force
that they tried to use for evil pur-
poses.

It is not by any means an improb-
ability that ancient Atlantis, with
their marvelous scientific civilization,
discovered this very secret of
unlocking atomic energy, and tumbled
in an attempt to use their knowledge
against the rest of mankind or each
other.

Man must be made as good as he is
clever before Utopia is established or
this earth that is so much more
not only for the church but for every-
body to worry about.

MASTERS OF THE AIR

Britain will build the world's largest
airship in order to calm the fears
of nervous Britons who are made
nervous by France's extensive air
policy.

This, at least, is better than spend-
ing money on battleships.

Over open a time naval races de-
veloped shipping improvements that
finally were applied to merchant
ships as well. But that day is over.
Merchant shippers have money
enough today to pay for their
own experimentation.

It is different with airships.
A nation frightened into building
itself a large efficient air fleet will
probably discover new principles of
aviation which in time will be used
in commerce.

The only consolation in Britain
now seems to be the master of the air
or, less in the fact that accomplish-
ment of that desire will probably re-
sult in Britain being the master of
the air in peace.

SODOM AND GOMORRAH

Some fifty thousand dollars is to be
spent by a distinguished party of
archaeologists in rummaging down
the ancient cities of Sodom and Gom-
orrah somewhere in Palestine.

It will be very interesting, of
course, for the average Canadian or
American to know exactly where
Lot's wife was turned to salt.

It will be a great curiosity to him
to be able to put his finger on him
who made the world what it is.

But outside of these undoubted
benefits, the discovery of Sodom and

Gomorrah will not do the average
man much good.

Millions of dollars have been spent
delving into the past. Millions have
been spent peering into the future.
But when it comes to trying a few
dollars loose from the ordinary in-
dividual to make the present a little
better or brighter, the proposition is
not so easy.

LOCAL AND PERSONAL NEWS

Born to Mr. and Mrs. G. H. Welkner on Wednesday, May 7th—a baby boy.

Mr. S. Baker has suffered with a severe attack of tonsillitis during the past week, but is now on the road to recovery.

Help beautify the Cemetery and Town square and spend an enjoyable evening by attending the Empire Day and party and dance given by the Women's Institute.

Staff Sergeant J. Webb has accepted the leadership and direction of the Wolf Cubs club rooms great enthusiasm was apparent. All members of the Wolf Cubs are requested to meet at the club room at 10 a.m. each and marching equipment for a hike Saturday morning with knapsack and marching equipment for a hike under leadership of P. "Chief" Next still Tuesday May 20th, when a full attendance is requested.

Wednesday, May 14, was a busy day for many people in Macleod, as much community work had been planned, and the Board of Trade, with the Women's Institute, had arranged to clean up the cemetery. At 4 p.m. many cars called at the public and High School and conveyed the boys with their rakes, to the scene of action, where they raked and cleaned then turned up all the rubbish, thus making a general "clean-up". In which they were assisted by a number of ladies of the Institute. While this was going on, others were in charge of A. Young, who planted many trees on the town square, where the council had prepared the ground, and the Women's Institute had trees ready for planting. This was accomplished during the afternoon, and President Farnett is delighted with the work done. Next Wednesday afternoon they expect to do some more clearing which will help much in preparing for the big Jubilee which takes place in Macleod on July 1st, 2nd, and 3rd.

All the young people of the town and country are invited to attend a meeting in the Town Hall, Tuesday evening May 20th, at 8 o'clock, to meet the Jubilee Carnival Committee.

The Macleod Women's Institute have made a start toward improving the appearance of the cemetery and the town square. The proceeds of the Empire Day dance, to be held May 20th, go toward this fund.

Mr. J. S. McGregor, entertained a number of little friends at her home on 19th st. and 2 Ave. on Wednesday afternoon in honor of the little daughter May's eighth birthday. The little folks gathered at 4:30 and spent a jolly time in games till Mrs. McGregor called them to a dainty luncheon with birthday cake and candles, etc. The guests were: Margaret Swinerton, Mona Gray, Irene Kennedy, Helen Dickson, May Hoodless, Betty McIntosh, Ida Vise, Geraldine Morrison.

On Wednesday last a very sad and sudden death occurred at the home of Mrs. Alf Ryan, 22nd St., when Katherine Jean Schuur, age 6, only daughter of Mr. and Mrs. A. R. Schuur, Owen Creek, passed away. The child was bright and in perfect health until Tuesday morning, when she contracted Meningitis, and all medical treatment was of no avail. Katherine was a general favorite with both old and young, and the many beautiful floral tributes from far and near showed the high esteem and love in which she was held. Her sudden death is keenly felt by her sorrowing parents and brothers. The funeral was held on Friday. The pall bearers were: Fern Anderson, Margaret Daly, Millie Miller, Edna Armer, Jean Ringland, Lena Elgin. The floral tributes were as follows: Mother, Daddy and Boy—Cross, Gramma, Uncles and Aunties—pillow: Glen Creek School, wreath and spray from Francis Foster, Mr. and Mrs. Roy Leopold, (Glenora), and Mrs. John Daly, Mildred Brown (Spring Point), the Palsley, Mr. and Mrs. W. H. Wilkinson, Fernand and Jack Couillard, Mrs. A. Ferguson and Edith, Lucila Johnson, Mr. and Mrs. Alf Ryan, 22nd St.

MUNICIPAL CANADA

The Pictorial Gazetteer of the Urban and Rural Life of Canada

There is shortly being published a comprehensive volume entitled "Municipal Canada" which will list of the four thousand municipalities in this country, and give particulars regarding each.

The ambition of the publishers of this work is to place before those who may be interested in Canada, a true picture of the establishment of industries in our cities and towns. "Municipal Canada" is along distinctly different lines to anything which has been published heretofore, and will no doubt do a great service in advertising the country.

The completed volume will occupy something over two hundred pages, and apart from being a beautiful example of the art of book-making, will contain invaluable information. Each Province will be dealt with separately and will open with an individual title page of a suitable length describing more fully the articles on the cities, towns and rural communities.

In addition there will be a directory for each Province listing each municipality, small as well as large, describing occupations, public utilities, banking facilities, educational opportunities, and in fact a complete picture of that place. In many cases there will be illustrations and articles of a somewhat general nature, but these will be of great value to the principal urban and rural communities in that Province.

The unusual nature of the undertaking has secured the interest of the Dominion and Provincial Governments, and of the Railway Companies, who are particularly interested in the colonization and development of Canada. In this respect Mr. E. W. Beatty, President of the Canadian Pacific, has contributed a special signed article, and Col. J. S. Dennis, Chief of the Department of Colonization and Development of the same Railway, has an article appearing on the work of his department in this connection.

The interest manifested by the provincial governments in the work is quite remarkable, and special introductory articles by each Premier will give an added interest to the work.

This work has apparently been under way for several months, and the first ten thousand copies are being rushed through so as to be placed at the British Empire Exhibition, to catch the summer rush. The copies will be freely distributed through the means of the various Governments and Railway Companies for the publishers.

Copies are also being mailed to the principal reading rooms and libraries, as well as to the leading newspapers throughout the British Isles.

The Publishers of "Municipal Canada" are the Municipal Publishing Company of Montreal, and are publishers of the "Municipia" Review of Canada, and other municipal publications for the past twenty years. They are to be congratulated on this far-reaching effort which will do much to advance a great deal of real and valuable work for our municipalities, and induce settlers and money to come to Canada.

The work is one which will fill a great void in the Canadian literature, and comprehensive work of reference and one in which our municipalities will be directly interested.

MACLEOD TOURIST CAMP POPULAR

The Macleod Tourist Camp has already become a favorite spot for the tourists who are occupying it every night. There are a few more improvements to make which will add to the service that will render the travelling public. Being on the cross-roads of the line and the line, also on the Black Trail makes this an important point for every one who wishes to see Alberta or any of the province east or west.

The Four Parks International, is now open, and connects with Macleod, also the Windsor road that will take many of the visitors to the Macleod Jubilee. Already information is being asked how to see all these points from Macleod, when they come here to see the Jubilee, and many questions as to how and where the roads lead. The roads lead to every part of North America from Macleod, and this will be the centre of 1924. The new Road map has been received, and the lines are much clearer than in 1923, so plain that any one can find a way to Macleod no matter where they may live.

"My hero," being freely translated means "my local dictator."
